

ENVIRONMENTAL TIMBER PURCHASING POLICY

Trusstec Limited is primarily a Timber Roof Truss manufacturer and Easi-joist floor joist manufacturer and as such we take our responsibilities seriously in respect to purchasing of timber.

Trusstec are committed to implement and maintain PEFC and sourcing all timber from legal sources. Trusstec will never source any timber species that is prohibited under appendix 1 of the Convention on International Trade in Endangered Species (CITIES).

All structural timber is purchased TR26 grade softwood, kiln dried European Redwood/Whitewood from well managed renewable forest sources.

Trusstec are PEFC Chain of Custody certified registration number CATG-PEFC-280

Trusstec purchase all structural timber minimum 70% PEFC certified from the following major U.K. suppliers:

Crown Timber plc:

All timber supplied by Crown Timber is minimum 70% PEFC certified under registration number TT-PEFC-0015.

The Crown Timber plc Environmental Statement can be viewed on their web site www.crown-timber.co.uk or is available upon request.

VIDA WOOD UK LTD.

The VIDA Timber Environmental Policy is available upon request. VIDA participates in the PEFC chain of custody certification scheme, certificate number 10000367/V044.
